Dublin Institute of Technology

We produce leaders in a range of fields.

Dublin Institute of Technology's distinctive approach to teaching combines practice-based learning, research of real-world issues, industry internships, and volunteer work that holistically prepares students for the world. Its programmes emphasize rigorous discovery and critical enquiry, and encourages entrepreneurship and diversity.

We uphold a tradition of innovation.

Research activities are geared towards problem-solving, social progress and technological development to advance human knowledge and make a positive impact in society. DIT is a member of the European University Association (EUA) and the International Association of Universities (IAU).

We foster an exciting environment for students across cultures.

DIT's friendly campus is home to 20,000 students, including international students from more than 85 countries. Small class sizes ensure that students enjoy focused learning from fellow students and academic supervisors. DIT has more than 100 student clubs and societies ranging from sports to the arts.

Located at the heart of Dublin, DIT is within the vicinity of unique attractions and experiences that Ireland's multicultural capital city proudly offers. Dublin is a UNESCO-designated City of Literature and a European City of Science (2012).
